Florence Emergency Access Program

The Western Pinal Association of Realtors® who are funding this program, with matching financial support from The Arizona Regional Multiple Listing Service are the pilots of the this service.

The [Florence Police Department](#), [Volunteers In Police Services](#) are providing delivery and installation of the “Key Safes” and maintaining records of installations and users of the service.

The [Florence Police Department](#) will be maintaining “non-public access” records on the program users and access information. This information will be used for the sole purpose of allowing the [Florence Fire Department](#), [Emergency Medical Services](#) and [Southwest Ambulance Services](#) access into a structure during fire or medical emergencies when health, life preservation or property damage is immanent.

Only the Police Department will have the access codes in the emergency access information system.

Primary Program Purpose

The primary purpose of the Emergency Access Program is to provide access to a residence in times of Emergency Needs such as Fire or Medical emergencies; safe and quick entry for those who are in need; reduce or eliminate property damage during such emergencies.

The Florence Program is aimed initially towards the elderly, medically infirm, physically or mentally impaired in preparation for emergencies pertaining to their personal health and property safety.

In the event that an individual has a fire or medical emergency, and that individual can not open the door to allow Fire and Medical personnel in to assist them, or if a fire related emergency should occur, emergency personnel can quickly enter the structure without damaging the doors or windows.

*Florence Police, Fire and Medical Services respond and assist those in need. Participating in the **Emergency Access Program** will make their job faster and safer for you!*
