Adolfo “Harpo” Celaya

H.R. 6304 (GOSAR_236) – Rep. Gosar (R-AZ-04)

Biography prepared by Rep. Gosar’s staff

Adolfo “Harpo” Celaya was born in Florence, AZ on May 16, 1927. His childhood was full of challenges, including poverty, neglect and abuse. He worked at various jobs, including picking cotton and working at the local dairy from the time he was about 8 years old. He earned his nickname, “Harpo” because he had thick black curls that reminded his friends of Harpo Marx.

When he was just 17 years old, he read a recruitment poster that boasted “Join the Navy, see the world,” and he begged his father to let him join the U.S. Navy. He was assigned to the *USS Indianapolis*, the flagship of the 5th fleet. The *Indy* saw a great many battles during WWII, and Harpo was there at the battle of Iwo Jima and witnessed the historic flag-raising on the island in February of 1945 (Finneran, 1994). During the battle of Okinawa on March 1, 1945, the *Indy* was struck by a kamikaze bomber, which Harpo witnessed just a few yards in front of him. This attack not only took the lives of 9 men and injured 26 others, but severely damaged the hull of the ship. He was also on board when the *Indy* went on a secret mission, delivering the ingredients of “Little Boy,” the atomic bomb that was dropped on Hiroshima, to the island of Tinien (Haynes, 1995).

His experiences on the *Indy* would change his life forever. On their way back to Leyte after their secret mission on July 30, 1945, shortly after midnight, Harpo was sleeping on the deck because it was too hot to sleep in their bunks below deck. It was very crowded with many sailors trying to avoid the heat. Even though it was hot, Harpo covered himself with a blanket as had been his habit for many years in trying to ward off mosquitos in the hot desert. When Japanese submarine I-58 hit the *Indy* with 2 torpedoes, that blanket was essentially vaporized, saving Harpo from being burned more severely. His eyebrows and eyelashes were burned off of his face and his legs were also badly burned (Clemons, 2008).

He was en-route to retrieve his life-jacket when he ran into his friend, Santos Peña, who told him that the ship was sinking and that they needed to abandon ship immediately. Santos jumped first and when Harpo jumped and landed on something hard, he thought that he had killed Peña. He was overjoyed to be reunited with Peña 3 days later. However, this joy was tempered by the loss of his crew chief, Fredrick Markman, who Harpo had been caring for since the torpedo attack, and who had suggested that they sleep up on deck in the first place. Harpo had attempted to tie him to a raft, but Markman let go and waved good-bye to Harpo amid the huge swells that separated them now. He had saved Harpo’s life, but now Harpo could not save him. The survivors of the *Indy* were rescued 2 days later. By then, Harpo had been in the water for 5 days. Of the 1,196 men aboard, about 900 men went into the water and only 317 survived (Haynes, 1995).

After being medically discharged from the Navy and awarded the Purple Heart, Harpo went back to high school in his hometown of Florence, AZ. He was recruited by Florence basketball coach George Ahee, who had learned of Harpo’s athletic prowess from his cousins, who were also on

the Florence Gophers basketball team. None of them were even 6 feet tall. All of them were Mexican-American, many of them were cousins.

In 1947, Harpo led his team to the Arizona State Basketball Championship, and was named Captain of the first-string all-state team. This was before schools were classified by size and small schools played big schools. Even though he was still suffering from his war injuries to his back and knees, as well as an overwhelming PTSD, Harpo was at the top of his game.

Proving that this championship was more than just a fluke, Harpo replicated these championship efforts in 1949 at Palo Verde Community College in Blythe, California, by leading his underdog basketball team to their District Championship. Again, the team was comprised of not-so-tall players of mixed ethnicity. Harpo went on to coach men's basketball at Palo Verde for a year and his team ended their season 17-2. Wherever he went, Harpo was a winner and a champion. And he accomplished all of this before he had reached the age of 25 (Clemons, 2008).

Harpo went on to become a cowboy for a few years, and was also successful in this effort. Eventually he ran his own small business, providing heating and air conditioning services to his new community of San Jose, California. Again, he enjoyed success in his career endeavors and has been retired for several years now.

Throughout his life, Harpo could often be found coaching or refereeing games for local youth; working with the local parks and recreation facilities. He knew first-hand the value of sports and exercise as a means to keep young boys out of trouble.

Harpo's walls are adorned by many plaques and awards honoring his efforts. He was inducted into the Arizona Basketball Hall of Fame at Arizona State University in 1972, and into the Florence High School Athletic Hall of Fame in October of 2008. He served as Grand Marshall for the Florence Junior Parade in November of 2009, and is often asked to appear in parades and other occasions in his community. He is always happy to be an example of excellence and survival and he is beloved in his hometown. Of the 23 survivors still alive today, Harpo is the only native Arizonan.

Rep. Gosar Advances Bill to Honor Arizona WWII Veteran and Survivor of USS Indianapolis

WASHINGTON, D.C. – Today, U.S. Congressman Paul A. Gosar, D.D.S. (AZ-04) released the following statement after the House Committee on Oversight and Government Reform passed the Congressman's sponsored legislation, H.R.6304, to designate the facility of the United States Postal Service located at 501 North Main Street in Florence, Arizona, as the "Adolfo 'Harpo' Celaya Post Office":

"Few Americans today know more about what it means to sacrifice for our country than Adolfo Celaya and the 317 survivors of the USS Indianapolis. Despite living through one of the darkest moments of WWII, Mr. Celaya has continued to inspire countless Arizonans through his eternal patriotism and commitment to serving all Americans. I am proud to support the Town of Florence in their endeavor to recognize Mr. Celaya for his dedicated sacrifice to our nation and his community."

Background:

Harpo Celaya enlisted in the Navy at the age of 16 to serve his country in World War II. He was only 17 when the ship he was stationed aboard, the USS Indianapolis, was torpedoed by a Japanese submarine. The ship sank in 12 minutes plunging Celaya and hundreds of his fellow sailors into the sea where they clung to sparse life vests and rafts, battling dehydration, weather exposure, and shark infested waters for more than four days while awaiting rescue. Of the nearly 1,200 sailors that had been stationed aboard the USS Indianapolis, only 317 survived and were

pulled from the sea.

Mr. Celaya returned to Arizona and continued a lifetime of service in his community. He is well-known throughout Arizona for sharing his experiences with high school students as part of the Veterans Heritage Project in an effort to inspire service and keep this incredible story alive.

The entire Arizona House delegation is an original cosponsor of H.R. 6304 in support of the bill.

CALL TO ORDER:

Mayor Rankin called the meeting to order at 6:01 p.m.

ROLL CALL:

Rankin, Walter, Woolridge, Hawkins, Guilin, Anderson, Wall

MOMENT OF SILENCE

Mayor Rankin called for a moment of silence in recognition of all those who serve to protect all of our citizens and in remembrance of 9/11.

PLEDGE OF ALLEGIANCE

Mayor Rankin led the Pledge of Allegiance.

CALL TO THE PUBLIC

Call to the Public for public comment on issues within the jurisdiction of the Town Council. Council rules limit public comment to three minutes. Individual Councilmembers may respond to criticism made by those commenting, may ask staff to review a matter raised or may ask that a matter be put on a future agenda. However, members of the Council shall not discuss or take action on any matter during an open call to the public unless the matters are properly noticed for discussion and legal action.

Mr. Terry Thomas, Florence resident, stated that in the course of selling his home it was discovered by the lender that the home is in a Federal Emergency Management Association (FEMA) designated flood zone. He stated that he purchased the home in 2010 and brought the following documents for Council's review:

- The appraisal report which indicates that the home is not in a FEMA designated flood zone nor is it in a special flood hazard area.
- Public Report for Unit 40, which is the Sun City neighborhood that the house is in. Page 3 of the report has the flooding and drainage section and page 4 has a section that reads no building envelopes fall within the floodplain, as modeled.
- Standard Flood Hazard Report – Determination Form, which was supplied by Coralegic. This report was supplied by the lender of the buyers who are purchasing his home, and is the report that they are basing their determination on.
 - Box No. 4 Flood Zone AE states that the home is in the flood zone.
 - Section C – Item No.1 states that federal flood insurance is available and mandated.

Mr. Thomas is trying to determine how this happened. The Coralegic Report contains a copy of the FEMA map, and according to the overlay, it indicates a portion of his home is in the floodplain. He stated he does not have any concrete evidence that states that they are not in Florence Town Council Meeting Minutes

October 3, 2016

Page 1 of 18

the floodplain nor does he believe the lender will side with him. He received a copy of the FEMA letter that was addressed to Mayor Rankin, dated May 4, 2015, from Pulte, which references the Letter of Map Revision (LOMR).

Mr. Thomas stated that based on his understanding there are approximately 100 homes that fall within the FEMA flood zone. This affects not only his home but approximately 99 other homes. He stated that this is of great concern with regards to the sale of his home because the lenders are requiring that flood insurance be obtained for the home, which will not cost more than \$15,000. He stated once the buyer is faced with this cost, they will no longer be a buyer for his home.

Mr. Thomas has spoken previously with Vice-Mayor Walter and Councilmember Anderson regarding this matter. He stated that the Town Manager has also been of great assistance and appreciates any assistance that he can get from the Town Council.

Mayor Rankin asked that Mr. Brent Billingsley, Town Manager, provide a presentation to Council, for approval regarding this situation. He stated once approved, the presentation will be presented to the public.

ADJOURN TO MERRILL RANCH COMMUNITY FACILITIES DISTRICT NO. 1

On motion of Councilmember Woolridge, seconded by Vice-Mayor Walter, and carried to adjourn to Merrill Ranch Community Facilities District No. 1.

Discussion/Approval/Disapproval of the Professional Services Agreement with EPS Group, Inc., for Community Facility District No. 1 engineering services, in an amount not to exceed \$250,000. (Chris Salas)

Mr. Chris Salas, District Engineer, stated that this requirement is per the Development Agreement, and outlined in Appendix B. There are different tasks that the Town Engineer and the District Engineer perform. The third party engineer is to review all of the documents as well as the requests for the General Obligation Bonds.

Chairman Rankin inquired if the Community Facilities District (CFD) or the General Fund will pay for the services.

Mr. Salas stated that the CFD will pay for the services.

Boardmember Wall inquired if this is a replacement of a previous engineer who was involved with this CFD.

Mr. Salas stated the agreement is for a replacement of the previous engineer. The District Manager cancelled all of the existing engineering contracts. He stated that all contracts were revised and new contracts are being issued.

Mr. Brent Billingsley, District Manager, stated that all of the old contracts ended. The Town went through a State required qualification-based selection process under State Procurement Law. The Town advertised for a Request for Statement of Qualifications (RSOQ), received

Florence Town Council Meeting Minutes

October 3, 2016

proposals, reviewed the proposals, held interviews, scored the interviews, and made qualification-based selections. He stated that the request is a not-to-exceed amount and it does not mean that the full amount will be spent. He stated that the contract is for two years.

Chairman Rankin inquired if this item will come before the Board each time money is spent.

Mr. Billingsley stated that the work for the CFD engineers is clearly defined in terms of what their tasks are and is related to reviewing of specific documents. He stated that nothing would come to the Board with regards to the CFDs.

Chairman Rankin inquired if the Board will be updated as to how much is being spent from the approved amount.

Mr. Salas stated that the Board will be updated annually as part of the budget process.

Boardmember Anderson stated that while he was on the Planning and Zoning Commission, he does not recall there being any comments of an independent engineer approving the plats that the Commission approved.

Mr. Billingsley stated that the scope of work is not to design projects or oversee construction, so nothing would go before the Commission that the engineers would be involved with. They are a third party reviewer that:

- Ensures that Pulte and the Town are treating each other well and that both are treating the public well.
- Regarding projects that are being scoped, the cost to do those improvements, the bid results, and the packages that are assembled to go to the street for bonds.

Boardmember Hawkins stated that they will not be doing any engineering work and are only doing review work to ensure that everything is being done properly.

Mr. Billingsley stated that the typical duties assigned to the Community Facilities District Engineer are outlined in Exhibit A, which is as follows:

Exhibit "A"
Scope of Work/Services

PROPOSED SCOPE OF WORK for Community Facilities District (CFD) On-Call engineering services:

The consultant will perform Community Facilities District (CFD) engineering services, including but not limited to, the following:

1. Coordinate with Town staff to obtain all necessary information needed to provide the services requested, such as assessor's files, copies of plats, boundary maps, assessments, bond sales and budget information. The Town will provide available information, such as maps, easements, right-of-ways, HOA information, street inventory, acceptance information, GIS data, etc. Maintain Arizona Registration as a Professional Engineer and stamp final plans, plats, reports and related documents upon approvals.

2. Examine phasing boundaries within the CFD, conduct analysis of benefit and proportionality, and apply appropriate methodology in conformance with state law and trends in recent court case rulings. The firm will propose, if appropriate, reconfiguration of any phasing or project boundaries. In undertaking this analysis, past CFD Engineer's Reports should be examined.
3. Prepare and submit to the District Clerk all aspects of the annual Engineer's Report, up to and including, the Final Report. The report must satisfy all legal requirements.
4. Provide all documents in digital format for posting on the Town's website, if necessary and take all steps necessary to ensure compliance with all requirements.
5. Attend up to two (2) Town Council meetings annually related to the CFD. Follow up and assist with administrative corrections to reports and/or tax roll. Attend meetings with Town staff, as requested by the Town.
6. Review facilities, engineer's estimates, invoices, plan sets, etc. within the CFD as necessary to assist District Staff with engineering analysis and recommendations.
7. Review properties that are eligible but are not currently included in any CFD, and provide recommendations as to how to best structure the current District so that these areas can be incorporated into the District in the future.
8. CFD engineer shall review and make recommendations for applications for changes in ownership of major landowners in districts; review, analyze and make recommendations related to developer requests for reimbursement; assist in reviews associated with development agreements and modifications to land use plans.
9. The consultant should review any proposals to increase or decrease assessment amounts, if appropriate, and make any and all necessary recommendations to the Town. The consultant will advise on the required tasks regarding assessments and provide assistance with the process.
10. Assist the Town in addressing property owners with questions concerning Special Districts, assessments, and other related CFD issues.

Mr. Billingsley stated that the individuals that do the ratings as the Town sells the bonds to pay for the public improvements are very interested in the third party review.

Mr. Salas stated that he can include updates in the Public Works staff report.

Vice-Chairman Walter asked Mr. Salas to upload some of the existing documents that they previously discussed. She stated that some of the confusion lies within the previous contract that was originally dated March 7, 2005 and did not have an expiration date. She stated that the Town is only expending approximately \$25,000 annually and she had questioned the significant increase in budgeting to a maximum of \$250,000 per CFD.

Vice-Chairman Walter stated that the District Manager previously explained to her that the Town will be accepting the additional projects that the Town had fallen behind schedule on and needed to catch up on. She now understands what this item is for and understands the amount that has been set. She stated that this information needs to be better communicated in the agenda packet and by doing so will alleviate the need for additional questions and promote true transparency.

Vice-Chairman Walter inquired if the third party would have caught the flooding issue.

Mr. Billingsley stated that the third party would not have caught the flooding issue as they do not review those types of items. He stated the CFD is a separate governmental body established to assess property owners in the area for regional improvements. Their only function will be those regional improvements, as defined, and in making sure that the proper process, under Arizona State Law, is followed. The property values are applied to those improvements and the proper reimbursements are attached to the actual sale of the bonds.

Mr. Salas stated that he has met with the District Manager to discuss the flooding issue. Things have been put in place and they are working on an agreement. The agreement has been sent to Pulte and their attorneys on different ways of locking lots that are in the floodplain.

Mr. Salas stated that with regards to items slipping through, staff is working on measures to ensure that items do not slip through and they will use a different approach. He stated that there will not be an easy mechanism for a slip through to occur. He stated that they are working with Community Development and utilizing the software program that will have multiple fail safes in place.

Chairman Rankin inquired if the dam at the Magma Flood Dike has been completed.

Mr. Billingsley stated that when they met with the Pinal County Flood Control District last week, it was indicated to himself and Mr. Salas that the certification of the dam was complete or near completion. The Town has not been provided with any record to that fact.

Chairman Rankin inquired if Pulte would be advised of the completion.

Mr. Billingsley stated that he does not know and that would be a question for Pulte. He stated that the Town would not be notified either because it is outside of the Town's area. The Town is the Floodplain Manager for Florence only.

Mr. Salas stated that Baxter, the engineer for Pulte, had indicated to him that they are aware of the change in hydrology.

Chairman Rankin inquired if it is up to them to apply for the LOMR change and how long the process takes.

Mr. Salas stated that they are in the process of the LOMR change.

Mr. Billingsley stated that Pulte has applied for three LOMRs. He stated the first LOMR was in 2007, the second was in 2015, and the third is under review at this time. He stated that once approved, FEMA provides the maps.

NEW BUSINESS

Discussion/Approval/Disapproval of the Professional Services Agreement with EPS Group, Inc., for General Civil On-Call Engineering Services, in an amount not to exceed \$500,000. (Chris Salas)

Mr. Salas stated that the requirements for all of the engineering items, inclusive of General Civil On Call Engineering Services and Utility On Call Engineering Services, under the Arizona Revised Statutes, Title 34, Chapter 6, states that engineers should be selected upon

Florence Town Council Meeting Minutes

October 3, 2016

Page 9 of 18

qualifications and not price. The Town solicited for on call engineers and they were ranked based on their qualifications. The six engineers that were selected were the most qualified.

Mr. Salas stated that every government entity has a list of on call engineers and it is normal practice for towns and cities to operate (inaudible) in the Public Works Department.

Mr. Salas stated that the Town of Florence has a defined process for working with its on call engineers. The engineers will be issued one task at a time and the tasks will go to the three respective disciplines. He stated that the three engineers will get the rough scope of work. They will refine that scope of work and submit it back with a (inaudible), schedule, and a revised scope of work. He stated that while they are not picking based on the lowest price, the system over the last ten years that has been used has effectively kept the consultants honest with one another.

Mr. Salas stated that the on call engineer contract will be utilized for work as defined by the approved current CIP and current fiscal budget. The on call engineers can also be utilized by Council/Town Manager priorities. He provided examples of Council/Town Manager priorities that resulted in expedited services through the use of on call engineers. There are instances that are not CIPs but require engineering services and the on call engineers enable staff to work efficiently and effectively.

Mr. Billingsley clarified an issue that occurred in Maricopa where there was a high chemical composition in the soil that was causing what was perceived to be degradation of the concrete throughout the entire Town. This became a very hot topic for the Council. Staff was able to use one of their on call engineers to do destructive and non-destructive testing and provide reporting to the Council with respect to whether those chemical issues were endangering structures in the Town.

Mr. Salas stated that Mr. Billingsley will post the items on the agenda for information only, as they are approved. Council will have the ability to see the work as it is being performed and that it fits within the CIP and the budget.

Mr. Salas stated that the contracts are for a not-to-exceed amount. He stated he can provide the listing of projects should Council desire.

Mr. Billingsley stated that Council approved a budget that included several CIP projects that amount to millions of dollars. In order to design for those projects, the Town needs to have the project development, funds available, and the availability to quickly move with respect to design. The dollar amounts for both the utility and general civil are not arbitrarily chosen. They are percentage based on the projects that are expected to be completed within the next two fiscal years.

Vice-Mayor Walter inquired of Mr. Salas what projects he was going to present for the on call engineering.

Mr. Salas stated the following projects:

- Florence Gardens Phase IV, which includes drainage improvements, survey, and construction documents,

Florence Town Council Meeting Minutes

October 3, 2016

Page 10 of 18

- Florence Gardens Phase V – future year
- Attaway/Hunt Intersection Improvement
- Well No. 1 – Equipping

Mr. Billingsley stated that the Town's website has a CIP tool in which you can obtain updates on CIP projects. He stated that once the outside consultants are on board and they are assigned to different projects, their information will be placed on the website as well. He stated that the CIP is posted on the website.

Mayor Rankin inquired when the Town went out for bid.

Mr. Billingsley stated that the Town started the process approximately 10 weeks ago. He explained the process from the issuance of the RSOQs to awarding a contract.

Mayor Rankin stated that it was during the budget process that Council approves the projects and staff would then utilize the on call engineers to do design. He inquired how much money has been earmarked for engineering services for all of the departments.

Mr. Billingsley stated that an engineering fee was not designated as a budget line item. He stated that it is done project by project. He stated that the engineering costs are approximately 10% of the project. He noted that the contracts have gone through legal review and the firms have agreed to and have signed the contracts.

Mr. Billingsley stated that staff will do another qualifications based selection in approximately 1 ½ years.

Councilmember Guilin inquired if the \$500,000 is accumulative for all three engineers and not \$500,000 per engineer. She stated it appears as though Council is awarding a total of \$1.5 million in engineering fees.

Mr. Salas stated that it is \$500,000 per engineer over the course of two years.

Mr. Billingsley reiterated that the engineers are not guaranteed \$500,000 each; the total is dependent on how many projects they are awarded. The cap that they can receive is \$500,000 over the course of two years. He stated that this provides the staff the availability to have the most qualified engineers to work with the Town and gives the Town the ability to move quickly when it is time to move on projects.

Councilmember Guilin commended Mr. Billingsley on this process. She stated that the Town has never done anything like this before. The process is very clear cut as to who is eligible to bid on the individual engineering services.

Vice-Mayor Walter stated that she has received concerns that it appears as though the Council is approving up to \$3,050,000 on the agenda. The concern was which CIP items would be addressed and in what phases will they be addressed. She understands that the website has a CIP tool which the residents can access.

Vice-Mayor Walter stated that the Town is forming a Strategic Plan and the Town is working with a consultant and citizens are participating in the process. It was understood by some of those participants that the CIP would be revisited after the strategic planning presentation was made to ensure that the Town is going in the right direction.

Vice-Mayor Walter stated that there were concerns voiced that some of the money was being set aside to get a jump start on the recreation center. She stated that Mr. Billingsley said that it would not be one of the items that are handled with these funds.

Vice-Mayor Walter requested that Mr. Billingsley notify Council when they reach the \$24,000 threshold of monies expended, specifically when Council is asked to approve contracts of up to \$500,000. She asked that this be built into the process.

Councilmember Hawkins stated that it would defeat what Council is doing by approving the contracts now. He stated that the proposed process streamlines the process.

Vice-Mayor Walter stated that in her conversations with Mr. Billingsley, he will still keep the Council apprised of the amounts to be expended for each of the projects. The Council will not need to approve the engineering for each project separately.

Mayor Rankin inquired if the Council approves the contracts, if it will eliminate the procurement process.

Mr. Billingsley stated that if the contracts are approved the individual task orders do not have to come back to Council for approval. Individual task orders with the engineering companies, up to \$500,000, can be added to the consent agenda for information purposes only, but it would not be contingent upon Council approval because Council would have already approved the contract.

Mr. Billingsley stated that no one has approached him about a recreation center, nor does he believe there is a recreation center approved in the CIP. He stated that it would not be an eligible project unless Council amended the CIP to make it a project. He stated that the contracts are for general civil engineers and utility engineers. It includes water, sewer, roads, structures, and traffic signal, and does not include buildings.

Mr. Billingsley stated that the meaning of an on-call contractor is to award the work specific to the projects that Council has already approved in the budget with their funding sources. He stated if there are specialty items, staff would request it from Council.

Mr. Billingsley stated that the contract is for two years with the ability to extend the duration of the contract; however, the do-not-exceed dollar amount would remain status quo. He stated that the Town still needs to remain under the expenditure limitation and within the approved budget.

Mr. Billingsley stated that the on call consultants are present in the audience should Council have any questions for them.

On motion of Councilmember Hawkins, seconded by Councilmember Guilan, and carried to approve the Professional Services Agreement with EPS Group, Inc., for General Civil On-Call Engineering Services, in an amount not to exceed \$500,000.

Vice-Mayor Walter inquired about the status of the Main Street Project.

Mr. Salas stated that the project is on schedule. The completion date is in early November.

Vice-Mayor Walter inquired if the lights have been determined, and if so, has the business owners been advised of what the lights will be like.

Mr. Salas stated that the lights were chosen some time back. He does not know if Mr. Knudson, Assistant Town Manager, has shared this with the business owners.

Vice-Mayor Walter inquired if there is a safety plan in place for the Homecoming Parade on October 21, 2016. She stated that the Florence Unified School District students from kindergarten to high school will be lining the streets.

Chief Hughes stated that there will be a volunteer presence and the contractor will ensure that the barricades that are up are per the Manual Uniform Traffic Control Devices (MUTCD) and that everything is safe. Removing the barricades would make things less safe.

Vice-Mayor Walter inquired if there is an update on the Florence Gardens infill and the infrastructure on the roads with the rain runoff.

Mr. Billingsley stated that the Florence Gardens HOA contacted the Town regarding the retention basin. He stated that the retention basin has been cleaned and that the Public Works crew cleaned the weeds behind the houses as well.

Mr. Salas stated that Mr. Dan Cisco, Public Works Superintendent, is working with the National Guard to partner with them on the project because they want to use the property for potential training grounds. He stated that if the partnership does not happen, they have received quotes for mobilizing equipment to the area and to do additional construction as well as placing "No Trespassing" signs on the property and filling in the holes. He stated that the barricades will remain until such time as the signs are installed.

Mr. Billingsley stated that the barbed wire fence is actually a construction fence that was installed by the developer and has rotted over time. There may be more of a liability issue if the Town removes the fence without first installing the "No Trespassing" signs. He stated that they did get advice from the insurer and the project will be very expensive to regrade the entire site. He suggested a future executive session regarding the trenches as they are not at collapsing depth. He stated that they are in discussion with the National Guard; however, the Town has no control over their schedule.

Mayor Rankin stated that he brought this issue to Council when he was approached by citizens in the Florence Gardens area.

Vice-Mayor Walter stated that the Florence Gardens citizens are approaching her as well as for the same issue.

PRESENTATIONS

Introduction of the 2016/2017 Town of Florence Information Technology Interns.

Mr. Trenton Shaffer, Interim IT Manager, stated that many municipalities provide some form of internship and volunteer opportunities for teenagers. This is a great way to develop their skills, help them find a solid career path and create interest in local government. The Town partnered with Florence High School (FHS) to utilize student interns that are currently participating in the FHS Multimedia Broadcasting Class. Students enrolled in this class are under the supervision and direction of Mr. Jim Nephew. He stated that in class, the students record, edit, and broadcast their Gopher News, which can be viewed on the FHS website. He stated that the students have the skill set necessary for public broadcasting, which includes, camera and microphone setup, teleprompter programming, audio and video editing and broadcasting, multimedia content creation, and much more.

Mr. Shaffer stated that the student internship is mutually beneficial to both the FHS and the Town. The Town will be granted full access to the FHS media studio. The students will benefit from the opportunity to directly apply their training by providing professional programming for town audio and video and town website content. They will assist with recording, editing and broadcasting the Town Council and other meetings.

Mr. Shaffer stated that the program is in its infancy and will continue to grow. The Town aims to provide relevant and better overall quality content to its citizens through the government access channel and Town website. He stated that they will learn and grow from citizen feedback regarding this content, provide additional training for students, and help develop a solid career path for the students' future, and get the youth more involved in local government.

Mr. Shaffer introduced Austin Rodriguez, FHS Senior, who is in his fourth year of multimedia broadcasting and has a wealth of broadcasting experience.

Mr. Rodriguez stated that he also competes in Future Business Leaders of America (FBLA), business video production. He placed 4th in State and 72nd in Nationals. He thanked the Council and staff for the opportunity to improve his video production skills.

NEW BUSINESS

Discussion/Approval/Disapproval of a contract to AJP Electric Inc., for the construction of the future traffic signal, to be located at the intersection of Hunt Highway and Attaway Road, in an amount not to exceed \$101,520.90.

Mr. Chris Salas, Public Works Director, stated that the contract is for labor for the intersection improvements at Hunt Highway and Attaway Road, inclusive of construction of the underground foundation for the poles, setting of the poles, mast arms, running of the wires and installation of the conduit. He stated that the procurement is done through a Job Order Contracting (JOC) approved through Maricopa County and was reviewed by the Town Attorney.

Mr. Billingsley defined that a JOC is a special procurement under the State of Arizona law as alternate project deliver. This is also known as “piggybacking on another city’s contract for similar work. This method will save the Town money.

Mr. Salas stated that the Town was initially going to purchase the temporary traffic signal trailers from Pinal County; however, Pinal County was not willing to sell the traffic signal due to the financial loss because of their existing value versus what they paid for them.

Mr. Salas stated that he considered the difference in cost between purchasing new traffic signal trailers and installing traffic lights at the intersection. The decision is to install a permanent traffic signal that will allow a right turn lane to be installed in the future.

Mr. Salas stated that the improvements to the intersection will include vehicular detection, which will improve the level of service. Staff will also be able to program the traffic signal for different times of the day, depending on traffic patterns.

Mr. Salas stated that the staff will come before Council in the future for approval on an Intergovernmental Agreement with Pinal County to allow for maintenance of the traffic signal. He stated the Town is using the same controller and poles that Pinal County uses so that they are able to maintain the traffic signal. They will also use standardized hardware. This is the first phase of the approved CIP Project. He stated that the initial traffic signal will not include any roadway improvements. A guardrail will need to be installed to provide a clear zone for pole protection. Staff will work with San Carlos Irrigation District (SCID) on the widening of Attaway Road to provide a northbound right turn lane.

Mr. Billingsley stated that the traffic signal has been programmed in the CIP for quite some time and was held up due to some challenges regarding right of ways in the area. The Town is up against a severe deadline in terms of construction of a brand new traffic signal because Pinal County has authorized the Town to use their temporary traffic signal through December 31, 2016. Mr. Salas has come up with a way to not only procure a design and construct in an incredibly tight timeframe but also a way to very efficiently and effectively construct a traffic signal without an absorbent cost and still allow for the ability to do future improvements in the vicinity. Mr. Salas has come up with a design concept that does not impact the right of ways where they were challenged before.

Mr. Billingsley stated that the traffic signal will look different than what a traditional traffic signal looks like, but will function quite well for the three legs of the intersection.

Mr. Salas stated that they started with an aggressive timeline on the design and he has worked with the construction company in advance of the approval to ensure that they have enough time once the project was approved. The company was chosen based on their qualifications and their ability to meet the deadline. They will be turning dirt in late November and will get the signal done in approximately 30 days if all of the hardware is available.

Mr. Salas explained the importance of ensuring that the entire product is onsite in order to get the project completed on schedule. He has been working with the company to ensure that the company has the product stocked in anticipation of the order being approved.

Councilmember Anderson thanked Mr. Salas for his diligence in getting this accomplished in such a short period of time.

Councilmember Guilin complimented Mr. Salas for the way the contract was bid out. She appreciates his conservative financial approach and his ability to save the taxpayers' dollars.

Councilmember Wall inquired if the traffic signal will be solar powered, and if not, where will the power come from.

Mr. Salas stated that the power is north of the intersection. He stated there is a guide wire that comes down on the last pole. The meter pedestal battery backup unit will be deployed in that vicinity. The Town already has an agreement that has been signed by ED2 on the design and the construction of the service.

Mr. Billingsley stated that one of the challenges with the traditional design was how to get power to all four legs of the intersection and not only the right of way concerns. Mr. Salas' design utilizes the ability to get the power from the same side where it is provided (i.e. ED2 line).

Councilmember Woolridge stated that current aesthetics at that intersection is not attractive and she is glad to see this project move forward. She thanked Mr. Salas for being financially conservative.

Vice-Mayor Walter stated that she appreciates his cost saving methods and for addressing the timing of the lights.

Mayor Rankin inquired if the total project cost will not exceed \$150,000.

Mr. Salas stated that the project is two part. The traffic signal equipment will cost no more than \$69,416.43 and the labor will be no more than \$101,520.90. He stated that both figures have a large contingency built in the cost in case the design changes. The design is not complete as of today. He stated they have specked out all of the equipment with the understanding that the pole could be moved which is why a cushion was built in for variables.

Mr. Billingsley stated that the traffic signal will cost more than \$200,000 in total and is very inexpensive compared to a traditional signal that can cost between \$250,000 and \$400,000. He stated that the traffic signal on State Highway 79 and Diversion Dam Road is expected to cost approximately \$350,000.

Mayor Rankin inquired about the traffic count at the intersection of Hunt Highway and Attaway Road.

Mr. Salas stated that in the mid-morning there are over 100 left hand turns off of Attaway Road. For approximately four hours straight, there are approximately 300 left hand turns off of Hunt Highway. The left hand turns are impeding traffic movement. The traffic count met two traffic warrants.

On motion of Councilmember Anderson, seconded by Councilmember Guilin, and carried to approve a contract to AJP Electric Inc., for the construction of the future traffic signal, to be located at the intersection of Hunt Highway and Attaway Road, in an amount not to exceed \$101,520.90.

Resolution No. 1602-16:

Mr. Billingsley read Resolution No. 1602-16 by title only.

A RESOLUTION OF THE TOWN OF FLORENCE, PINAL COUNTY, ARIZONA, AMENDING THE TOWN OF FLORENCE FY 2016-2017 EMPLOYEE CLASSIFICATION PLAN.

Mr. Scott Barber, Human Resources Director, stated that the US Department of Labor announced changes to the rules regarding the Fair Labor Standards Act (FLSA). He stated that the FLSA governs several things, including the issue of overtime compensation. He provided a brief overview of the history of FLSA and how it pertains to government entities. He stated that

in terms of overtime, the particular law allows for certain tests to be performed to determine if someone could be exempt from the overtime provisions and one test is the salary test. The salary test has to be met before any further tests can be performed.

Mr. Barber stated that the Department of Labor issued a new ruling changing the minimum salary from \$23,660 to \$47,476 effective December 1, 2016. There have been 21 states that have filed legal action to stay the decision; however, employers are moving ahead with the idea that the new rule will take effect December 1st.

Mr. Barber stated that they have looked at the classification entry levels of the Town's positions and, as a result, they are asking for a change in five classifications. One classification is not in use and the others affect four employees. The employees will now qualify for overtime compensation. He stated that the Town Manager expects to operate within the realm of tools that are available to management and mitigate the possibility of overtime.

- Town classifications from "exempt" to "non-exempt" to comply with change
 - Associate Engineer
 - Parks Maintenance Superintendent
 - Planner
 - Court Administrator
 - Senior Building Inspector
 - Facilities Manager

Mr. Barber stated that he has worked with Mr. Salas regarding things that were done prior to his arrival and some adjustments that he has made since he began his employment with the Town. He stated they have been working on alignment issues and moving positions around in the organization. The changes include:

- Public Works Department Changes
 - Utility Superintendent will change to Water Superintendent
 - No change in salary
 - Senior Wastewater Treatment Plant Operator will change to Wastewater Superintendent
 - No change in salary
 - Public Works Operations Technician (Public Works Administration) will change to Facilities Maintenance Specialist (Facilities)
 - Internal recruitment
 - Position will be reclassified
 - Public Works Operations Technician position is currently vacant
 - Maintenance Worker I (Streets) will change to Fleet Services Supervisor (Fleet Maintenance)
 - Promotion = +\$2,119

Mr. Barber stated that the changes in the Public Works Department are supported by the parameters of the Public Works budget. He stated that after the changes are made, there will be several vacancies in the Public Works Department and many will represent promotional opportunities in the Streets Division.

Councilmember Anderson inquired about the financial impact because it appears that several of the positions have a probability of having overtime.

Mr. Barber stated that overtime is always a focus and management has emphasized the necessity to utilize flex time to mitigate overtime expense. He stated that when overtime has to be paid; it will be expensed to the departmental budget.

Mr. Billingsley stated that staff is not asking for more positions nor is staff asking for more money. Rather the re-allocation of positions is to better align staff which allows for more effective and efficient services within the means of the current budget.

Mr. Billingsley stated that Mr. Barber and Mr. Salas have done a substantial amount of research regarding monies that were being spent on outside consultants to do work, particularly in the Facilities Maintenance Department. He stated that there is a staff person who has been able to serve in an interim role. The individual is HVAC certified and has done similar type of work that the Town was hiring consultants to perform on a weekly basis. The Town is able to utilize its resources more efficiently and is able to realign personnel to that effect based on a vacancy that already exists within the department.

On motion of Councilmember Guilin, seconded by Councilmember Wall, and carried to adopt Resolution No. 1602-16.

TOWN MANAGER'S REPORT

Mr. Billingsley stated that the Florence Police Department is very involved in supporting the Special Olympics. They are starting the "Movember Program" in which Police Officers grow facial hair during the month of November to provide charitable donations to Special Olympics. The Police Officers thanked him for allowing the Police Department to participate in the event and the importance of supporting the Special Olympics.

Mr. Billingsley stated that there will be a GAIN event (Getting Arizona Involved in Neighborhoods) on October 22, 2016 at Anthem Community Park Amphitheater. The event is to make the community aware of the benefits that the Town of Florence and the Florence Police Department offer to the community. There will be informational booths covering a variety of topics. Several law enforcement agencies and businesses will be participating in the event as well.

Mr. Billingsley stated that American City and County Magazine announced, via their website, on September 26, 2016, the winners of Igniting the Flames Award for Young Professionals. Alison Feliz was nominated for the award and finished in the top five out of 30 entities. He stated that you can visit their website for more information and to view her biography.

Mr. Billingsley read a letter from the Bureau of Justice Assistance, which read

"The Bureau of Justice Assistance is pleased to inform you that your agency will receive an award under Fiscal Year 2016 Bulletproof Vests Partnerships Solicitation. These funds have been posted to your account in the BVT system. A complete list of Fiscal Year 2016 BVT awards is available at www.ojpusdoj.gov."

Mr. Billingsley thanked the grants team as well as the Police Department for applying and receiving the grant.

Mr. Daniel Hughes, Police Chief, stated that the grant will allow for the purchase of four vests. He stated the vests cost approximately \$1,000 each. The vests are worn daily by the officers and they have a five year life span.

Mr. Billingsley stated that he received an email in which he read:

"Dear Mr. Billingsley,

I'd like to take a minute of your day to thank you and to compliment your Public Works employees that work downtown on the streets and at the parks. I am a Florence resident and every morning I go for walks throughout the community with my newborn baby. Every time I see a city employee I am greeted with a hello and a good morning.

Being the mom of three young children, a simple greeting of hello and their presence gives me piece of mind that my children and I are safe in our outings and within our community.

Your employees have a great presence in our community. They are always seen working hard, paying attention, and looking out for the community.

Thank you for your time and please pass this on to the appropriate personnel."

Koko and the students kept the crowds energized and the event was awesome.

Vice-Mayor Walter thanked Mr. Salas for visiting with the Florence Gardens residents this past Saturday to provide an update on the projects and to address their concerns.

Vice-Mayor Walter stated that she has worked with Mr. Billingsley on the update with regards to the potential flood zone discrepancies in Anthem discussed at the last Council meeting. The Town Manager and Town Engineer are diligently communicating with Baxter Design Group, Pinal County Flood Control and Pulte to confirm and address the concerns that were voiced. It is the Town's goal to resolve the issue working with Anthem's design engineer and Pulte. The Town has requested, and is currently awaiting confirmation from Pulte as to sponsoring an informational session to provide potentially affected residents and the Town with an update. The Town is taking this very seriously and moving forward in an expedited manner.

Mayor Rankin stated that there was a fund raiser for Gabby Lara on October 15, 2016 at the Elks Lodge. It was very well attended and far exceeded what they anticipated. The Posse cooked 300 steaks and was sold out within two hours. The patrons consumed almost all of the beer that the Elks Lodge had on hand. He stated that both Florence and Coolidge residents supported a great cause.

Mayor Rankin stated there was information disseminated that the Mayor should have written a letter regarding the flood zone discrepancy. He responded in the local paper to those comments. It is not the Town's responsibility to do so; it is between the homebuyer and the seller. The Town cannot be liable for information that it does not have any control over as far as the LOMR maps that were done.

Mayor Rankin invited everyone to attend the Homecoming Parade and all of the related events.

RECOMMENDED MOTION/ACTION:

Approval of the Purchase and Sale Agreement for long term storage credits with the Central Arizona Water Conservation District (CAWCD).

BACKGROUND/DISCUSSION:

For the last 16 years, the Town has entered into a Groundwater Savings Agreement with the Pinal County Water Augmentation Authority (PCWAA). The agreement has been in place to deliver the Town's 2,048 acre foot allocation of Central Arizona Project (CAP) water annually and to accrue stored water credits in its long-term storage account with the Arizona Department of Water Resources (ADWR).

Staff has spent months researching and negotiating options for the Town's CAP allotment that would generate positive cash flow. The research has yielded an option whereby the Town would recharge its CAP allotment with the Tonopah Irrigation District and subject to the terms and conditions of this agreement, beginning January 1, 2018, Florence would agree to sell, transfer and assign to CAWCD all long-term storage credits created from the storage of Florence's CAP Water.

The initial term of this agreement shall extend from the effective date to December 31, 2022. This agreement will automatically renew for three additional five-year terms, unless either party notifies the other in writing at least 120 days before the expiration of the initial term, or the renewal term as applicable, that it does not wish to renew this agreement.

FINANCIAL IMPACT:

Last year's agreement with PCWAA resulted in a projected \$210,000 negative cash flow. Utilizing the formula provided in the "draft" contract with CAWCD the proposed agreement would reverse the negative trend, as shown below:

$AP = [(CAP \text{ Long Term M\&I Subcontract Capital Charge} + CAP \text{ Fixed OM\&R Charge}^* + CAP \text{ Pumping Energy Rate Charge}^* + CAP \text{ Underground Water Storage O\&M Charge for the Phoenix AMA}^*)/.94] \times \text{Annual Long-Term Storage Credit Volume for the applicable year}$

where,

AP = the Annual Purchase Price for Long-Term Storage Credits transferred in the applicable year

****As published in CAP's Annual Rate Schedule for the year in which the credits are transferred.***

Staff projects that for the 2017 CAP allotment of 2,048 acre feet, we can expect to profit by approximately \$188,000 and the Town anticipates that revenues will increase annually over the term of the agreement.

STAFF RECOMMENDATION:

Staff recommends entering into a purchase and sale agreement for long term storage credits with the Central Arizona Water Conservation District (CAWCD). The Town Attorney has reviewed and approved the Agreement as to form.

ATTACHMENTS:

Purchase and Sale Agreement for long-term storage credits with the Central Arizona Water Conservation District.

ARTICLE 2 **PURCHASE OF LONG-TERM STORAGE CREDITS**

2.1 Sale and Purchase. Subject to the terms and conditions of this Agreement, beginning January 1, 2018, each year during the term of this Agreement, Florence agrees to sell, transfer and assign to CAWCD all Long-Term Storage Credits created from the storage of Florence's CAP Water minus losses as determined by ADWR pursuant to A.R.S. § 45-852.01(C). CAWCD agrees to purchase, accept and pay for such Long-Term Storage Credits. Provided, however, Florence shall not be obligated to sell, transfer and assign Long-Term Storage Credits to CAWCD pursuant to this Agreement, for any year in which Florence is unable, for reasons beyond its control, to store CAP water and/or accrue CAP water Long- Term Storage Credits at the TID Groundwater Savings Facility or at another underground storage facility or groundwater savings facility agreed to by CAWCD pursuant to Article 2.6 of this Agreement.

2.2 Annual Purchase Price Calculation. The Annual Purchase Price for the Long-Term Storage Credits to be transferred pursuant to this Agreement will vary from year to year and shall be based on components of the CAP published rate schedule. $$AP = [(CAP \text{ Long Term M\&I Subcontract Capital Charge} + CAP \text{ Fixed OM\&R Charge}^* + CAP \text{ Pumping Energy Rate Charge}^* + CAP \text{ Underground Water Storage O\&M Charge for the Phoenix AMA}^*)/.94] \times \text{Final Annual Long-Term Storage Credit Volume for the applicable year}$$

where

AP = the Annual Purchase Price for Long-Term Storage Credits transferred in the applicable year

*As published in CAP's Annual Rate Schedule for the year in which the credits are transferred.

[The following is an example calculation of the Annual Purchase Price using the applicable CAP charges for 2017 and a Final Annual Long-Term Storage Credit Volume of 2,000 acre-feet of Long-Term Storage Credits:

$$AP = [(\$31 \text{ (CAP Long Term M\&I Subcontract Capital Charge)} + \$87 \text{ (CAP Fixed OM\&R Charge}^*) + \$77 \text{ (CAP Pumping Energy Rate Charge}^*) + \$12 \text{ (CAP Underground Water Storage O\&M Charge for the Phoenix AMA}^*))/.94 = \$220.21/\text{Long-Term Storage Credit}] \times 2,000 \text{ acre-feet of Long-Term Storage Credits (example Final Annual Long-Term Storage Credit)}$$

Volume)
= \$440,420

]

2.3 Type of Water. It is the intent of the parties that all Long-Term Storage Credits purchased and sold under this Agreement shall retain the identity of the source of water used to generate such Long-Term Storage Credits.

2.4 Long-Term Storage Credits.

2.4.1 The Long-Term Storage Credits to be sold by Florence are from Florence's Long-Term Storage Account and shall be transferred to CAGRD's Account(s) subject to the terms and conditions of this Agreement.

2.5 Water Storage Permit; Obligation to Store Water.

2.5.1 Florence shall apply for and obtain a water storage permit from ADWR pursuant to Arizona Revised Statutes § 45-831.01 authorizing Florence to store Florence CAP Water at the TID Groundwater Savings Facility. Florence shall provide CAWCD with a copy of the permit within ten (10) days of ADWR's issuance of Florence's Water Storage Permit.

2.5.2 Florence shall provide CAWCD with a copy of any agreement between Florence and the Tonopah Irrigation District authorizing Florence to store Florence's CAP Water in the TID Groundwater Savings Facility and any amendments to such agreement.

2.5.3 Except as otherwise agreed to by CAWCD pursuant to Article 2.6 of this Agreement, commencing January 1, 2017, and continuing each year during the term of this Agreement, Florence shall store the entire annual volume of Florence's CAP Water at the TID Groundwater Savings Facility for the purpose of creating Long-Term Storage Credits to sell to CAWCD under this Agreement. Provided, however, Florence shall not be obligated to store the entire annual volume of Florence's CAP Water in any year in which Florence is unable to do so for reasons beyond its control.

ARTICLE 3 TIME AND MANNER OF TRANSFER

3.1 Annual Notice. On or before February 15, 2018 and on or before February 15 of each year thereafter during the term of this Agreement, Florence shall notify CAWCD of the volume of Long-Term Storage Credits to be sold to CAWCD during such year (the "Estimated Annual Long-Term Storage Credit Volume").

3.2 Long-Term Storage Credit Transfer Form. On or before March 15, 2018, and on or before March 15 of each year thereafter during the term of this Agreement, Florence and CAWCD shall complete, sign and deliver to ADWR the Long-Term Storage Credit Transfer Form to evidence the transfer of the Estimated Annual Long-Term Storage Credit Volume for that year. A copy of the Long-Term Storage Credit Transfer Form is attached as Exhibit A to this Agreement. If ADWR adopts a different Long-Term Storage Credit Transfer form, then the Parties shall utilize that form instead. On or before March 15, 2018, and on or before March 15 of each year thereafter during the term of this Agreement, CAWCD shall submit a fully executed Long-Term Storage Credit Transfer Form to ADWR.

3.3 Additional Actions and Documentation. CAWCD shall pay any administrative fees established by ADWR to effectuate the transfer of Long-Term Storage Credits into CAGRD's Account(s). The parties shall cooperate to take such further actions and execute such further documents as may be determined by either party to be necessary or advisable in order to complete the transfer of the Long-Term Storage Credits contemplated by this Agreement.

ARTICLE 4 COMPLETION OF DELIVERY AND PAYMENT

4.1 Completion of Delivery. Delivery of the Long-Term Storage Credits to be transferred to CAWCD in any particular year under this Agreement shall be deemed complete when ADWR notifies CAWCD in writing that ADWR has received and accepted the Long-Term Storage Credit Transfer Form for such year and intends to transfer Long-Term Storage Credits from Florence's Long-Term Storage Account to CAGRD's Account(s) ("ADWR Acceptance"). The volume of Long-Term Storage Credits that the ADWR Acceptance provides will be transferred from Florence's Long-Term Storage Account to CAGRD's Account(s) in any particular year will be the "Final Annual Long-Term Storage Credit Volume" for that year and will be used to calculate the Annual Purchase Price for that year.

4.2 Payment. Each year during the term of this Agreement, within thirty (30) days after CAWCD's receipt of the ADWR Acceptance, CAWCD shall pay Florence the Annual Purchase Price as calculated pursuant to Article 2.2 of this Agreement.

ARTICLE 5 REJECTION OR INVALIDATION OF TRANSFER

5.1 Rejection or Invalidation of Transfer. If ADWR, pursuant to Arizona Revised Statutes § 45-854.01 (C), rejects or invalidates any transfer or assignment of Long-Term Storage Credits made hereunder before CAWCD has paid for such Long-Term Storage Credits, CAWCD shall not be obligated to pay for the number of Long-Term Storage Credits affected by such rejection or invalidation. If such rejection or invalidation occurs after payment has been made by CAWCD, Florence shall refund an amount equal to the number of Long-Term Storage Credits affected by such rejection or invalidation times the price per acre-foot paid by CAWCD for the affected Long-Term Storage Credits, as such price is established in Article 2.2 of this Agreement. Florence shall refund such amount within forty-five (45) calendar days after either CAWCD or Florence receives any notice of rejection or invalidation from ADWR. CAWCD shall transfer and assign back to Florence the number of credits affected by any such rejection or invalidation. Florence's obligation to refund any payments under this Article 5 shall expire thirty (30) days after ADWR has issued a non-appealable final agency decision approving the transfer and assignment of the Long-Term Storage Credits into CAGRD's Account(s). The Parties' rights and obligations under this Article 5 shall remain in full force and effect, and shall survive termination of this Agreement for purposes of addressing a circumstance where ADWR rejects or invalidates any transfer of Long-Term Storage Credits made hereunder.

ARTICLE 6 EFFECTIVE DATE AND TERM

6.1 Term. This Agreement shall be effective as of the date set forth in the introductory paragraph of this Agreement (the "Effective Date"). The initial term of this Agreement shall extend from the Effective Date to December 31, 2022 (the "Initial Term"). This Agreement will automatically renew for three (3) additional five (5)-year terms (the "Renewal Term(s)"), unless either Party notifies the other in writing at least one-hundred twenty (120) days before the expiration of the Initial Term, or the Renewal Term as applicable, that it does not wish to renew this Agreement. (The Parties intend that Florence will sell and CAWCD will purchase Long-term Storage Credits for five (5) years under the Initial Term of this Agreement, and up to twenty (20) years, if this Agreement is automatically renewed pursuant to the provisions of this Article.)

6.2 Termination. Notwithstanding Section 6.1 of this Agreement, CAWCD may terminate this Agreement if Florence has not commenced storing Florence's CAP Water at the TID Groundwater Savings Facility by October 1, 2017. If CAWCD desires to terminate this Agreement pursuant to this Article 6.2, it shall provide written notice of termination to Florence no later than December 31, 2017.

ARTICLE 7 DEFAULT AND REMEDIES

7.1 Default. The occurrence of any of the following events constitutes an event of default by a party to this Agreement:

7.1.1 The failure of either party to perform any term, covenant, or condition of this Agreement, if that failure continues for sixty (60) days following the receipt of written notice from the other party. The parties shall have an opportunity to cure a potential failure to perform or other breach of this Agreement during the sixty (60) days following receipt of written notice. Both parties shall cooperate with each other to remedy any default.

7.1.2 (i) The filing by or against either party of a petition to have the party adjudged a bankrupt or a petition for reorganization or arrangement under any law relating to bankruptcy (unless, in the case of a petition filed against a party, the same is dismissed within sixty (60) days); (ii) the making by a party of any general assignment for the benefit of creditors; (iii) the appointment of a trustee or receiver to take possession of substantially all of the party's assets, when possession is not restored to the party within sixty (60) days; or (iv) the attachment, execution, or other judicial seizure of substantially all of a party's assets, where such seizure is not discharged within sixty (60) days.

7.2 Remedies. If an event of default occurs, the non-defaulting party may immediately terminate this Agreement by written notice to the defaulting party and/or may pursue any other rights available to it in law or equity. The obligation of the defaulting party to pay any amounts due but unpaid as of the date of termination under this provision shall survive such termination.

ARTICLE 8 MISCELLANEOUS PROVISIONS

This Agreement is governed by and must be construed and interpreted in accordance with and in reference to the laws of the State of Arizona, without regard to its' conflicts of laws provisions. Any action to resolve any dispute regarding this Agreement shall be taken in a state court of competent jurisdiction located in Maricopa County, Arizona.

RECOMMENDED MOTION/ACTION:

Motion to approve the purchase of a Skid Mounted 1.5 M Belt Filter Press and associated equipment for the South Wastewater Treatment Plant (SWWTP) from Sebright Products, Inc., in the amount of \$309,985.00, plus a 10% Owner's Contingency of \$30,998.50, for a total not to exceed amount of \$340,983.50.

BACKGROUND/DISCUSSION:

The purchase of a Skid Mounted 1.5 M Belt Filter Press and associated equipment will be used to process aerobically digested sludge produced at the SWWTP. Due to the inefficiencies and equipment age, it has been recommended to replace current dewatering devise (Belt Filter Press). This will give us the ability to handle increased flows and produce a dryer solid to send to the landfill; therefore, directly effecting landfill disposal costs and chemical usage. In addition to increased efficiency, we will now have updated equipment that will allow for reliable automatic and manual operation needed for increased monitoring for possible land application/sludge management program in the near future. Purchase of the new equipment will cut reactive and preventative maintenance time in half, minimizing the amount of time spent keeping equipment running properly.

In addition, the purchase of this Skid Mounted Belt Filter Press for the SWWTP will allow Public Works to relocate the current Belt Filter Press from the SWWTP to the North Wastewater Treatment Plant (NWWTP). Currently, the Town pays for sludge hauling from the NWWTP to the SWWTP for sludge dewatering at an average of \$23,000.00 per year (based on the previous three years expenditures).

The purchase of a Skid Mounted 1.5 M Belt Filter Press and associated equipment was advertised and bids were opened on November 3, 2016.

The three bids received were:

1. Sebright Products, Inc. \$309,985.00
2. IES Southwest \$364,725.00

| | |
|----------------|--------------|
| 3. Sean Fields | \$412,637.59 |
|----------------|--------------|

Based upon these bids, Sebright Products, Inc., with a bid of \$309,985.00, is the lowest responsive responsible bidder.

FINANCIAL IMPACT:

There is \$206,695.79 remaining in the Water Infrastructure Finance Authority (WIFA) Loan that will be applied to this purchase. The remaining amount is in the current Sewer budget to fund the purchase of this equipment.

STAFF RECOMMENDATION:

Staff recommends that Town Council authorize the purchase of a Skid Mounted 1.5 M Belt Filter Press and associated equipment from Sebright Products, Inc., in an amount of \$309,985.00, plus a 10% Owner's Contingency of \$30,998.50 for a total not to exceed amount of \$340,983.50.

TOWN OF FLORENCE COUNCIL ACTION FORM

AGENDA ITEM 8c.

MEETING DATE: November 21, 2016

DEPARTMENT: Public Works Department

STAFF PRESENTER: Christopher Salas, P.E., Town Engineer and Public Works Director

SUBJECT: Water System Rehabilitation and Protective Coating for Water Storage Tanks 5A and 5B

- Action
- Information Only
- Public Hearing
- Resolution
- Ordinance
 - Regulatory
 - 1st Reading
 - 2nd Reading
- Other

RECOMMENDED MOTION/ACTION:

Motion to approve and execute the contract with Superior Tank Solutions, Inc., for the Rehabilitation and Protective Coating for Water Storage Tanks 5A and 5B.

BACKGROUND/DISCUSSION:

On April 19, 2016, Superior Tank Solutions, Inc., performed an inspection on Storage Tanks 5A and 5B. The following deficiencies were sited; severe degradation of protective coating on the interior and exterior of tanks and substantial amounts of oil buildup on the tank interior. To maintain successful operation and compliance with ADEQ and ADHS, tank rehabilitation and recoating is necessary.

The project for the Rehabilitation and Protective Coating for Water Storage Tanks 5A and 5B was advertised and bids were opened on November 3, 2016.

Six base bids were received:

| | |
|---|--------------|
| 1. Revolution Industrial, LLC | \$334,931.00 |
| 2. Superior Tank Solutions, Inc. | \$359,950.00 |
| 3. TMI Coating Painting and Restoration Contractors | \$431,000.00 |
| 4. Riley Industrial Services, Inc. | \$474,070.00 |
| 5. MMI Tank and Industrial Services | \$511,718.00 |
| 6. Utility Services Company, Inc. | \$530,780.00 |

Based upon these bids, Revolution Industrial, LLC, with a "base bid" of 334,931.00 is the lowest responsive responsible bidder; however, they do not meet the minimum requirements. Therefore, the next lowest responsive responsible bidder is Superior Tank Solutions, Inc., with a bid amount of \$359,950.00.

FINANCIAL IMPACT:

The WU 65 CIP budget provides a funding level of \$ 650,000.00 in the Capital Improvement Program for improvements to Site 5 equipment.

STAFF RECOMMENDATION:

Staff recommends the approval of the contract with Superior Tank Solutions, Inc., for the Rehabilitation and Protective Coating for Water Storage Tanks 5A and 5B in an amount of \$359,950.00, plus a 20% Owner's Contingency of \$71,990.00 for a total not to exceed amount of \$431,940.00. Contingency is a normal requirement for this type of project; unforeseen items will reveal themselves during construction.
